VOL. XVIII. NO. 106. CHARLEROI, WASHINGTON CO., THURSDAY, OCTOBER 18, 1917. ONE CENT

REVIVAL OF RIVER INDUSTRY WILL REQUIRE MORE STEAMBOATS

New Marine Ways to Be Built for McCune Dock Company

IMPROVEMENT IS NECESSARY

Information comes from down river points that the McCune Dock Company at Dravosburg will begin an important addition to its plan within the next few weeks. Preliminary work is already under way at that point, which is expected to result in the construction of a marine ways, where steamboats can be built, as well as large craft docked for repairs. At the present time the McCune company is provided only with section docks, upon which it repairs many of the steamers now in commission on the Monongahela, but the necessity for greater facilities has been imperative for many months.

The rejuvenation of the coal towing trade on the Monongahela makes it absolutely necessary that more steamers be built, in order to keep up with the persistent demand for steamboats of the towing pattern. Pool boats, as they are termed, are worked to their extreme capacity at the present time to take care of the insistent demands made upon them, and the only remedy to the situation seems to be the building of more steamboats.

It is into this field of endeavor the McCune Dock company is preparing to enter with greater vigor than ever. Already it has a large amount of work on hand and its yards are continually full of craft awaiting repairs. With the construction of a marine ways the capacity of the plan will be greatly increased, making it possible to take care of a greater volume of work.

Boat building on the Monongahela has been at low ebb for a number of years, but during the past year it has taken on a new lease of life which promisese to add many modern boats for the towing trade. Many improvements have been made since the old-style towboat was first placed in commission, the newer boats being easier on fuel, as well as more commodious and convenient for the crew.

Children, 10; Adults, 20c

Through an unintentional error in the Majestic Theatre advertisement yesterday, the admission was given as Adults 15 cents. It should have read, Adults 20 cents. Manager Sweeney was in nowise responsible for the error, as the presentation of the high class film which he preesnts today and tomorrow requires a higher admission to meet the additional expense.

LEAP FROM BUGGY RESULTS FATALLY

Mrs. Catherine Bistle of near Finleyville, jumped from a buggy she was driving on Tuesday, when the horse frightened. She alighted on her head, sustaining a fractured skull which later resulted in her death. At the time of the accident the unfortunate woman, who was accompanied by her daughter, were making a detour because of repairs being made in the public road. When coming down a steep hill a holding back strap broke which frightened the horse and the accident followed.

SUPPLIES FOR THE CHILDREN

Local Relief Society Sends Well Packed Box to France

FOR RELIEF OF THE BABIES

The Charleroi Society for the relief of wounded and destitute people in France and Belgium of which Mrs. A. W. Day is chairman, has just packed a box of goods which will be of great benefit to the babies and the sick in the district which it reaches.

The box which contains 375 cans of condensed milk for babies, 18 cans of tomatoes, nine cans of beans, 12 cakes of soap, a 25-pound sack of sugar, a box of loaf sugar, a box of sweet chocolate, a box of candy and a box of licorice.

All of these donations were carefully packed in a strong box, and the package has been sent on its way to assist in the relief of the distressed people of that war-ridden country, thousands of whom are in a pitiable condition. The Charleroi society has already made a splendid contributon of clothing to these people. Garments of every description as well as shoes, all of them repaired and cleaned and also forwarded to some point in France.

Mrs. Day is in receipt of a letter from one of the sections where a great deal of destruction prevails, which tells of conditions as they exist in that immediate vicinity. It shows what the people of that country are compelled to undergo in the awful war now raging in western France.

Born—To Mr. and Mrs. D. M. Phillips, of Fifth street, on Sunday, October 14—a son.

SHE GIVES HER BOY—WILL YOU LEND YOUR DOLLARS?

POLICE HELP THE TOBACCO FUND

James Murphy	.00
G. W. Corey	1.00
Charley Peters	1.00
Hardie Albright	.50
Joseph Lichter	1.00
A. L. Dubinsky	1.00
Chas. S. VanVoorhis	1.00
H. J. Booth	1.00
Frank Hubinon, Jr.	1.00
R. J. Riley	.25
Total	$95.75

Burgess Woodward and the members of the police department led the subscription to the Mail's tobacco fund Wednesday afternoon, and together with a number of citizens it makes an impressive showing. The local fund is rapidly approaching the century mark, which will be devoted to purchasing "smokes" for the boys who are now doing and who will be called into foreign service. It will not be many days until many boys from Charleroi will be over seas. According to information drifting in from Augusta, the Pennsylvania troops now at Camp Hancock will soon be "on the way." Following the Rainbow Division, the Twenty-eight, composed exclusively of Pennsylvania troops will be the next to go across. Many local boys are serving in the 110th. It will not be long, therefore, before we will have more than a passing interest in the war developments as they take place in France from day to day. The mighty "push" now in Flanders will have a new significance to us when our own boys get back of the battle line. And one of the comforts that will help the boys to bear with the burdens they will have to undergo will be the tobacco which is furnished from home. "Do your bit."

Allen J. White Dies in California

Allen J. White, aged 59 years, one of the best known and highly respected citizens of California, died at his home there Wednesday morning. He had lived in California for the past 23 years. He was a civil engineer by profession. He is survived by his wife one daughter, Miss Jessie, and two sons, Harry M., of Belle-Vernon and J. Merrill of California. Rev. Elliott S. White, pastor of the First M. E. church of New Kensington, is a brother and Frank W. White of East Pike Run township is another.

Vincent Kelly of Fairmont W. Va., is visiting with his sister, Mrs. Floyd Bonnell of Fallowfield avenue.

Mrs. C. E. Clegg of McKean avenue spent Thursday in Pittsburg.

TABLET IN HONOR OF FORMER NINTH STREET SCHOOL PUPILS

FORMER RESIDENT IS DEAD IN PHILADELPHIA

B. Greenberg, a former resident of Charleroi, and who left here about two years ago for Phiadelphia, died at his home in that city Wednesday evening at 7 o'clock, aged 78 years. He is survived by three sons, Nathan and Louis, of Charleroi and David of Philadelphia. Funeral services will be held Friday afternoon. Messrs. Nathan and Louis Greenberg left today to attend the services.

REACHING THE FINAL DRIVE

Liberty Loan to be Feature of Services on Sunday Next

LEAFLETS HAVE BEEN PREPARED

Chairman Kenfoot W. Daly will on Friday deliver to the various local churches a quantity of leaflets on which is printed the "Star Spangled Banner" and "America." These leaflets are intended for use on Sunday next in the various services as the different churches may direct in the interest of the Liberty Loan. Next Sunday, you know, is Patriotic Sunday. Various ministers are expected to bring some message to their congregations with reference to this very important subject.

The campaign for the new Liberty Loan has only ten more days to go, including today. In that time the country must raise about $4,000,000,000. In other words every day from now until Saturday, October 27, we must pledge money at the rate of $400,000,000 per per day. Charleroi's share of the total amount is $459,600. It is up to us to produce the goods. And in the remaining days of the campaign we are urged to do our utmost in the way of not only soliciting others to subscribe, but to subscribe ourselves. Every community in the United States is busy—let us not be "slackers" in this absolutely important and necessary work for the preservation of the liberties of our country.

Marble and Granite Display

Two car loads of granite and marble monuments, just unloaded, are now on display at the show room of the M. T. Crowley Marble and Granite Works, 325 McKean avenue. 102-tf-*

Tablet Placed in Building Inscribed with Their Names

OTHERS WILL BE ADDED

A little ceremony took place at the Ninth street school Wednesday forenoon, which will be a perpetual patriotic reminder to the pupils of that building. The ceremony was the unveiling of a tablet in honor of former pupils who have answered the call of their country and are now serving in the various military branches of the United States.

The tablet, which bears the names of all these former pupils, is placed on the walls of the first floor corrider near the Fallowfield avenue entrance to the building and is neatly draped with our country's emblem.

The tablet bears the names of the following young men all of whom received their early education at this institution—Ralph Malcolm, Henry Lowstuter, John Popson, Harry Worthington, Jules Dordam, John Yezeppi, James Wagner, John Carroll, Thomas Mangan, Frances Bezy, Harry Arnold, Ronald Flohr, Louis Bertram, William Ludwig, James Geekie, August Arrigo, William Spridik, Paul Ternavsky.

Other names will be added as the war progresses, and as additional men are called. The inscription on the tablet reads:—"Former pupils of this school now serving the colors." It will remain in place at least during the duration of the war, and may be it will be perpetuated even after hostilities have ceased.

The tablet is a splendid memorial to the young men from this school who have answered their country's call and will serve to remind the pupils now in attendance of their patriotic duty toward their country.

COUNCIL DOES NOT AGREE ON WATER MAIN

A brief special session of the borough council was held Wednesday evening at which time the proposition of the Tri-Cities Water Company to lay a main on Sixth street was discussed. The general manager of the company, together with the engineer and the local superintendent were present and they talked over with members of council the proposal to place the main on the location in dispute. No decision was reached a vote on the proposition developing in a tie, three being for and three against.

There appears to be a division of opinion as to where this leaves the question, some contending the water company can go ahead with locating the main on the street originally proposed. Whether the company will do this or not is something for the future to answer.

FALSE RUMORS.

Parents and those next of kin need not be afraid the government will not notify them of any accident that may befall any of their family who is doing duty with the army in France. This fact is again called to the attention of the people by an announcement from the executive secretary of the National Committee of Patriotic Societies, which on Tuesday issued an appeal to the people to "demand proofs" of doubtful assertions concerning war matters.

Charleroi relatives have already suffered great mental anguish because of rumors and reports of this kind, but they should rest assured in the promise of the government to make official reports on all casualties that may occur to the American army now being assembled in France. It is hard enough to bear with the thought that some loved one is serving the colors, a duty which may eventually lead all soldiers into dangerous situations, but it is even worse to be worried by false rumors, circulated with a malicious view and for the purpose of bringing heartaches to members of the family most concerned.

Pay no attention to rumors or "they say" statements. Official news of this kind will be issued by the government whenever it is necessary so to do.

OUR ATTITUDE

We have spoken heretofore about the attitude of the American people toward the present war; of the fact that there is, apparently an indifference manifested, which is apt to have [illegible] one determination some of these days soon. From reliable estimates we have over 100,000 men in France. They have been transported quietly and safely across the Atlantic and are being prepared for active service not far from the western battle line. Soon they will be a part of it. When this shall happen, then we will realize to the fullest extent the fact that America is in the war.

Harry Lauder, the great Scotch singer, whose only son was killed in battle, and who is now helping to arouse America to its danger in the present war says:

"America will know all about the war when the first convoy brings back the men who will never see again, the men who will never walk again, the men who will never speak again. That's when America will realize what she's up against. Don't think you're coming to fight for Britain, for France, for Belgium. You're comin' to fight for yourselves."

And who will say that Lauder's words are not true. Theodore Roosevelt has declared that it is the battleship fleet of Great Britain that has made the United States safe so long. Had it not been for the high seas fleet of this nation the United States would have tasted before this the sorrows of war. As it is we have suffered enough at the hands of the Germans, and unless we can achieve a victory in the present war we will suffer even greater degradation. When the convoys come home, bearing the sick and the wounded and the helpless, then we will realize the fact that we are at war.

UP-RIVER COAL

Shipping coal from the upper pools of the Monongahela river will be a very common occurrence within the next few years. Formerly this field was considered too remote to bother with; coal was too handy in the fourth and fifth pools, and to send a towboat and barges above No. 6 entailed an expense that the returns would not justify.

That situation has been changed by present day conditions. While there is a great deal of coal produced in the fourth and fifth pools, and an increasing amount in the sixth pool, the fields to the south must be worked with greater intensity if the supply of fuel is to be kept at a normal quantity.

The fact that one of the coal firms operating on the Monongahela has found it necessary to send its steamer and empty craft into the fifteenth pool to secure coal is significant. True facilities in that end of the river are not on a par with those in this vicinity, but regardless of this fact coal operators will have to put up with the limited improvements there in order to get the necessary amount of fuel. Shipments from that section will be limited because of the smaller capacity of the locks above No. 6, but in spite of this handicap they will increase from year to year until a regular line of steamers will be found transporting coal from the West Virginia fields with schedule-like regularity. The needs of the Pittsburg district for coal is increasing yearly, and it is absolutely necessary that new field of operation be opened and placed on the market. This is now being done in the distant pools of the Monongahela.

THEIR LIVES AND MONEY.

Reports up to Tuesday night showed that the soldiers now in the various military cantonments throughout the United States had contributed $25,448,000 for the Liberty Loan bonds. These figures will be exceeded for the men are not yet through with buying Uncle Sam securities.

If the soldier is willing to risk his life and his money, why should not those at home be willing to risk their money in these Liberty Loan bonds. As a matter of facts Liberty Bonds are not a risk—they are an investment, the safest investment a man or woman can make today. Of course there are investments that will pay greater returns, but in these days of war these of us at home should not be so concerned about making money as we should be about making our country safe for the people.

The government needs the money to carry on its immense undertaking in which it is now engaged. It pledges the resources of the government to make these bonds good, and the United States is no repudiator. If the men now preparing for active service in France are willing to buy bonds to the amount of millions of dollars, why should not the folks at home be ready to make every sacrifice that the Liberty Loan be a success. The boys in camp are watching us.

A Ferrisburg, Vt., correspondent of the New York Sun, a "Republican in politics," thinks that "Marching Through Georgia" is not an appropriate or desirable tune to be played by the military bands of a united America arming to fight a foreign foe. Nothing that the first detachment of drafted men marched out of his town to this tune, he says: "While it was all right at one time why can't it be put aside now? It might hit some of our boys in a sore spot. Surely we would not want to wound the heart of any one of our brave boys, nor of the older ones who are brothers now." The same thought has no doubt occurred to many another observer during recent weeks and with good reason.

Our Ambassador at Paris warns his countrymen that "every word spoken in the United States which can be distorted into the semblance of disloyalty or willingness for an indecisive peach quickly reaches Berlin, where it is misrepresented as evidence of dissension, thus tending to prolong the war and increase its sacrifices." At all events the Germans, who are so easily fooled, will pay the heaviest share of the penalty.

Six months ago this country was distinctly on a peace footing and the showing of the government's Official Bulletin in every particular sustains its assertion that "the transition from conditions of peace to those of war—from the standpoint of rapidity and thoroughness—is without precedent in the history of democracies."

Patriotic Physicians.

The October Bulletin of the Westmoreland Medical Society states that over 100 physicians of the Westmoreland County Medical Society, outside of New Kensington, have applied for commissions in the Medical Reserve Training Corps, and are now at various cantonments. This is some record.

Our Toes Endangered

The present extremely high heels worn by the majority of American women, both old and young, mean deformity of the feet.

X,Ray pictures indicating the relation of the toes to the ground when they are encased in these high-heeled shoes, show that women are walking on the ends of their five toes. There is food for thought in the fact that the horse nowadays walks on a foot consisting of one toe, while in the more primitive animal there were three or five toes.

The shape of the natural foot of man has a great variety of uses and it is one of the things that has helped to place him first in the life of the earth. The natural foot has been one of the anatomical facts that has helped him to his present high state of efficiency. The form of that foot has enabled him to become a good hunter, a good farmer, a good sailor, a good soldier, in fact, anything he has found it necessary through the ages to become, or finds now essential for the war we are fighting to continue our personal liberty.

Let the butterfly girls and the other high heeled old and young women stop and realize the value of the normal foot of man. Let them cut off the high heel and substitute the natural level. This might also work out to the interest of direct economy by using the surplus heel to make thicker soles on the shoes, which would be very sensible and practical for the climate we have in Pennsylvania.

Let us recognize the models of Nature, which have led us to success. If man's foot had been abused for an indefinite time in a way to have reduced it to a one-toed foot, resembling the horse's, he would have a hard time trying to fulfill his present duties in life.

The high heel represents the fashion for the women of today and means a great discounting of the value of mankind, particularly if it is continued a long time. The present high heel is not only torturous, but of great injury to the health. The mother must remember that she is partly responsible for the feet of her children and that if she wants them to have normal, strong feet she must keep them naturally shod.

A musical and literary entertainment will be rendered by division No. 1 P. H. C. under direction of Mrs. John Connell Friday evening Oct. 19. A full attendance is requested. 106-tf

The First Thing

The very first thing you need to buy for Fall and Winter is your supply of Underwear. The foggy, disagreeable, damp mornings of this climate requires you to wear good, warm underwear for your health and comfort. This year as never before we urge you to secure your needs early as possible to secure the present low prices. While our stocks are big they are selling fast and duplicates will cost us a big advance in prices if we are able to secure them at all.

HEAVY TRAINS ON LOCAL DIVISION

Hauling over hundred loaded coal and coke cars on the Monongahela Division, requiring three engines to move them, shows the efforts being made by the railroad companies to relieve the coal situation, which appears to be growing more acute from day to day. One train went down Tuesday afternoon which had 111 cars.

To Locate State Police

A detachment of State Police, under Sergeant Frank Sturm, will again be located in Monongahela about the first of November. The detachment was removed from Monongahela at the time of the declaration of war, but the authorities have decided to re-establish it at that point.

DEAN PROVES HE IS NOT OF AGE

Isaac N. Dean, the young man arrested at the Charleroi mine on Saturday last on a charge of being a "slacker" appeared at the Charleroi police station Wednesday evening and presented proof to Chief Albright which relieved him of the charge. Young Dean had a sworn affidavit with him from his mother, setting forth that he was 19 years old on the 5th day of last June. As there was no evidence to the contrary the young man was allowed to go his way, possibly somewhat wiser for the experience through which he has just gone.

Dean's arrest was brought about by his own boastfulness. He persisted in telling his fellow workmen in the mine that he was of age but did not have to register. When arrested, however, he soon changed his tune and said that he had not reached the required age. However, Chief Albright demanded proof, which Dean brought in the shape of an affidavit setting forth that he was 19 on the 5th day of last June.

Card of Thanks.

We wish to thank our friends and neighbors for the many kindnesses extended to us during the last illness and death of our father.

Charles W. Krepps,
Mrs. Elmer Hazlett.

Overworked Women must learn not to neglect their health

How Women are Restored to Health

Spartanburg, S.C.—"For nine years I suffered from backache, weakness, and irregularities so I could hardly do my work. I tried many remedies but found no permanent relief. After taking Lydia E. Pinkham's Vegetable Compound I felt a great change for the better and am now well and strong so I have no trouble in doing my work. I hope every user of Lydia E. Pinkham's Vegetable Compound will get as great relief as I did from its use."—Mrs. S. D. McABEE, 122 Dewey Ave., Spartanburg, S. C.

Chicago, Ill.—"For about two years I suffered from a female trouble so I was unable to walk or do any of my own work. I read about Lydia E. Pinkham's Vegetable Compound in the newspapers and determined to try it. It brought almost immediate relief. My weakness has entirely disappeared and I never had better health. I weigh 165 pounds and am as strong as a man. I think money is well spent which purchases Lydia E. Pinkham's Vegetable Compound."—Mrs. JOS. O'BRYAN, 1755 Newport Ave., Chicago, Ill.
